ACADEMY

Your **Mission**

Your **Requirements**

Your **Training**

Overview

Ntrepid Academy training solutions pair our suite of managed attribution (MA) and secure browsing solutions with domain expertise to teach students the technical skills and operational best practices necessary for becoming effective cyber administrators.

Our Goals for You

- Leverage our SaaS solutions to effectively manage online attribution across the clear, deep, and dark web to support your mission operations
- Understand the risks of identifiable digital fingerprints, techniques for open source online investigations, and best practices for social media research
- Master audit logging, compliance, and reporting features of Ntrepid tools in administrator and supervisor courses

Ntrepid offers customized, mission-focused training for:

- Law enforcement investigations
- OSINT/PAI
- Additional advanced operations

Approach

Ntrepid offers an experiential training approach, supporting customers through tailored, hands-on activities. Students spend a majority of each training session testing and using our solutions in real time, with experts available to assist, demo, and answer questions.

Scenario-based, tactical activities and capstone exercises allow students to develop and refine practical skills, explore the tools' features, and utilize them as they would during actual missions.

Tailored tabletop activities

environments

Customized case studies and
facilitated discussions highlight
operational best practices and
emerging cyber trends

Capabilities

Ntrepid develops flexible, customizable training courses with your specific users in mind. Course content can be curated for all skill levels, including basic, advanced, and administrator training.

Ntrepid's training team can also deliver on-site training or comprehensive, train-the-trainer materials, allowing customer team leads and supervisors to provide ad hoc training on Ntrepid solutions and best practices.

Our state-of-the-art training facility provides students with direct access to the wealth of expertise at Ntrepid. Training in our D.C. metro area office includes

interactive training devices, stadium seating for up to 30 students, student workstations, flexible space for tabletop activities, and the capability to host live webinars.

Ntrepid's training team can also deliver on-site training or in-depth train the-trainer materials to enable customer team leads or supervisors to provide ad hoc training on Ntrepid solutions and best practices.

WHO WE ARE

Our training team is comprised of experienced cyber analysts and solution experts, enabling us to anticipate customer requirements and provide mission-specific courses. When not training our customers, training team members are full-time analysts, performing industry research to remain informed about cyber threats facing law enforcement and national security professionals as well as their organizations.

Beyond a fully supported technology, Ntrepid also administers a team of experts who will work with you to determine the best approach for your specific needs.

Ntrepid Academy training solutions are backed by intel and research from our team of R&D analysts. We invest heavily in R&D to stay ahead of the industry's rapidly changing landscape and provide anticipatory solutions for our customers' needs.

Additionally, training with Ntrepid doesn't conclude at the end of our training sessions. We continue to provide ongoing support in the form of solutions updates, monthly newsletters, and Nsight Series and Spotlight Reports. Our Nsight Series highlights specific case studies for identifying product usage best practices. Spotlight Reports use in-house research to identify, assess, and interpret emerging cyber and tech trends and challenges, while offering actionable tips for addressing them.

Customer Testimonials

The unique combination of our team members' experience and our ongoing research means that no one else is as qualified to train your team in how to safely and successfully conduct your missions with Ntrepid's cutting-edge technology solutions.

“
**One of the
best courses
I have been a
part of...**”

“
**Outstanding
training on both the
products and topics
covered. Should be
mandatory training
for all [our agency's
employees]...**”

“
**This course and
products are past
due; they should be
made available to
all employees...**”

The logo features a stylized white 'N' with a diagonal cutout, followed by the word 'TREPID' in a bold, white, sans-serif font. A registered trademark symbol (®) is located at the top right of the 'D'.
